Generation America

## **A Message from the Founder of Generation America**

I am a small businessman, having owned and operated my own businesses since 1974. Thanks to hard work and our amazing free enterprise system I have been successful. I have lived the American Dream. I recently retired, and like many of you, am looking forward to enjoying this new stage of my life with my wonderful family and great friends.

Recently, I have watched our government grow at an alarming rate. I have become convinced over the course of my career that government is rarely the solution to a problem and that government solutions are almost always woefully inefficient and expensive failures. Our current government is growing and spending money at an unprecedented rate. This administration and Congress has tripled deficit spending and our national debt is approaching 12 trillion dollars. In less than a year! I believe this out of control spending is a recipe for disaster. The President of the Czech Republic called our current spending a "one way road to Hell". I agree with him.

Health "reform" was just the catalyst for me. Obviously, the current administration is dedicated to expanding the role of government control in our lives in many areas. My commitment to the free market system and to small, efficient government and personal freedom has been reignited by the unprecedented efforts to expand the government's role in our lives.

As I watched this trend in the growth of government, which I believe will rob our generation of the fruits of our many years of labor and which will leave our children and grand-children paying the bill for their entire lives, I felt that it was time to take a stand. We must stop this insanity.

I rounded up a group of very capable friends and colleagues and started Generation America. We are committed to the founding principles of our Great Nation. We are committed to small government, low taxes, personal responsibility and FREE MARKETS. We are committed to the American Dream. We are committed to fight for these beliefs.

We are self-funded. We accept no money from corporations, companies, large donors, political action groups or parties. We accept members at \$19.

There is strength in numbers. We cannot do this alone and we need your help. Please, **STAND WITH US**. We can change the course of America.

Sincerely,

**Michael Young**  
Generation America
